SAFEMCH AT EXPOS

dialabxpo.com

The Danish business community can once again meet personally as well as professionally at expos. As the host we will of course comply the current regulations.

The reopening plan following the relaxation of coronavirus restrictions is also good news for the DiaLabXpo at Docken, Copenhagen.

The relaxation of restrictions means that the expo can be held under largely normal conditions.

Visitors will no longer need to wear a face covering, and from September they will not need to show a vaccine passport at expos, meetings and conferences. All events will be held with no area restrictions or limitation on the number of participants.

Through SafeMCH we will continue to ensure that you can safely visit the expo, and that we fully comply with all the health authorities' recommendations and requirements.

We look forward to seeing you again at DiaLabXpo.

We are creating unique experiences where people can meet **safely**.
